

The WI No-Call list is a valuable asset to Wisconsin consumers. Since I have registered my phone on this list I can be certain that when I pick up my phone I will be speaking to someone who I know or have done business with in the past. I appreciate having this service available so I know that not only will I not be harassed but neither will my family who are all on this list. I recommend it to all of my friends and colleagues as well. Please do not change the laws regulating this valuable and worthwhile commodity.
